## *Discofer the Hospitalizy of the Mosel*

Who thinks of the Moselle, to that marvellous sceneries, romantic wine places and a unique river valley come to the sense.

The little city Cochem forms the centre of the holiday's country between Colone and Trier.

The imperial castle controls the townscape from almost every perspective with her plentiful pileworks.

Small alleys and the medieval marketplace form the city centre where everybody feels fine immediately.

But in Cochem you can see even more.

Board yourselves in the mustard mill, in-house mustard production, with tasty mustard, go with t wine express train about the vineyards or enjoy a marvellous view of the castle or the Pinnerkreuz of the chair lift which is removed, by the way, a cat's jump from the hotel of Holl.

For our latest guests the wild U comes up. Leisure park in Klotten in.

However, they are able to do also above our 15 subject ways of the Moselle walking or riding a bike ...
